MEMORANDUM

FOR THE MEMBERS OF THE RESTORATION ADVISORY BOARD (RAB) FOR THE INSTALLATION RESTORATION PROGRAM AT NAVAL WEAPONS INDUSTRIAL RESERVE PLANT (NWIRP) CALVERTON, NEW YORK

The Navy has scheduled a technical subcommittee meeting with the regulatory members of NWIRP Calverton's RAB which will be held on Thursday, June 3, 1999 at the NYSDEC offices in Stony Brook, New York. The meeting will begin at 11:00 a.m. This meeting is open to the community members of the RAB but not to the general public.

The main focus of this technical meeting will be to discuss and make decisions regarding the completeness of the Navy's Phase II RFI conducted at Site 7 - Fuel Depot. This discussion will revolve around the GIS-based, three-dimensional profiling figures developed for the Site 7/10A Parcel which were previously submitted to the RAB under separate correspondence.

One other agenda item that will be discussed will be the groundwater monitoring well location maps and the groundwater flow direction maps that were also generated by the Navy's GIS and subsequently submitted to the regulatory and community RAB members.

Decisions that are reached at this technical subcommittee meeting will then be announced at the next RAB meeting that will take place on **Thursday, June 10, 1999**. This meeting is open to the general public and will be held at the Ramada East End in Riverhead, NY. The meeting will begin at 6:00 p.m. Directions to the Ramada East End are attached.

If you need additional information, please call either Debbie Cohen of Tetra Tech NUS, Inc. at (412) 921-7118 or myself at (610) 595-0567, extension 163.

Sincerely,

JAMES L. COLTER
Remedial Project Manager
by direction of the Commanding Officer
